

ENSURE YOUR SUCCESS WITH INNOVATIVE SYSTEMS AND INDUSTRY EXPERTISE!

INTACT - YOUR COMPETENT PARTNER FOR AUDIT MANAGEMENT, TRACEABILITY AND QUALITY ASSURANCE

Intact delivers a world-class international consultancy service that includes the offer of its exclusive and innovative industry software to its clients. We are approved experts in audit management, traceability and quality management within all aspects of the food industry. Our software competence and quality assurance is certified by Microsoft and according to ISO 9001.

The long-term practical experience, as well as the process know-how of our experts enables us to work closely with clients to develop tailor-made specific or broad-spectrum solutions. These solutions are based on exclusive, innovative, multi-lingual software products that can be implemented modularly. We consult and support clients at every step, from formulating the problem, specific programming, assured roll out, to staff training and permanent customer care. We are proud to contribute to the success of our clients through our diligent attention to their needs.

ECERT

Data-base driven audit management and CRM software - online and offline

FLOWWEB

Full traceability over the entire product chain through documented origin

NUTRIWEB

Quality assurance for agricultural products

THE COMPANY

The Austrian founders of Intact, who previously worked in food marketing, were early to recognise the necessity of providing greater transparency and ensuring safety in the food chain.

After its establishment in 2001, the first Intact software solutions to systematic quality assurance and traceability were installed at several leading food companies. Enlargement of the product portfolio followed with the introduction of the premier industry software for audit management.

Today numerous companies and organisations worldwide trust Intact solutions.
